rnw_to_rmd()

business_card()

Package features

Create a MiNI WUT themed documents with following main features:

1. Works in all modern browsers
2. Presentation fully keyboard accessible
3. Multiple themes available
4. Printable to PDF
5. RNW to RMD conversion
6. Business cards generator

`rnw_to_rmd()`

`business_card()`

beam_this_rmd()

beam_this_rmd() converting .Rmd file into beautiful MiNI WUT themed beamer presentation

An example usage:

```
rmarkdown::render('tests/prezentacja_pakietu.Rmd',  
  miniBeamer::beam_this_rmd(  
    themecolor = 'sapphire',  
    fontcolor = 'graphite',  
    toc = FALSE,  
    incremental = FALSE,  
    fig_width = 9,  
    fig_height = 6,  
    fig_crop = TRUE,  
    pandoc_args = NULL,  
    bl = "BOTTOMLEFT",  
    br = "BOTTOMRIGHT",  
    highlight = "haddock",  
    latex_engine = "xelatex",  
    bl = "C:/Users/bgranat/Desktop/logoPW.png",  
    br = "C:/Users/bgranat/Desktop/WMINIznak.png"))
```

Example presentation

```
---  
title: "miniBeamer RMD_TO_PDF initial presentation"  
author: mckraqs  
output: miniBeamer::beam_this_rmd  
---
```

miniBeamer PDF presentation with R Markdown

Get it from GitHub: <https://github.com/mckraqs/miniBeamer>

R Markdown

R Markdown

This is an R Markdown presentation. Markdown is a simple formatting syntax
for authoring HTML, PDF, and MS Word documents.

rnw_to_rmd()

rnw_to_rmd is converting .Rnw file into .Rmd file which can be further used to create a pdf presentation

An example usage:

```
oided <- path()
newed <- new("new", "new", sep="")
newed(newed)

miniBeamer::rnw_to_rmd("new.Rnw")
rmarkdown::rmarkdown::to_rmd("new.Rnw",
  miniBeamer::beam_this_rnw(toc = TRUE,
    latex_engine = "pdflatex",
    thesencolor = "apple",
    fontcolor = "apple",
    hl = "C:/Users/Adam/Desktop/Logoff",
    hr = "C:/Users/Adam/Desktop/Logoff")
  )

newed(oided)
```

Politechnika
Warszawska

Wydział Matematyki
i Nauk Informatycznych

Formulas

It supports both inline: $y = x/2$ and displayed formulas:

$$x_{1,2} = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

3. 1.01.2020 PARTY!!!
 - Drink juice
 - Eat popcorn
 - Go to sleep before midnight
1. 30.01.2020 oops exams

Formulas

It supports both inline: $y = x/2$ and displayed formulas:

$$x_{1,2} = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

Slide with quote

*Na tym przedmiocie nie nauczę was jak się robi aplikację. . .
ale i tak będziecie musieli ją zrobić.*

Michał Okulewicz

Slide with R Code and Output

```
print('Test1')  
## [1] "Test1"  
options(tibble.width = 120)
```

- Some text

```
super_complicated_equation_evaluation <- 2 + 2  
super_complicated_equation_evaluation  
## [1] 4
```

Tables

Przedmiot	Liczba godzin	ECTS
Analiza matematyczna 1	60	6
HTML	30	4
Procesy Stochastyczne	45	5
Rachunek Prawdopodobieństwa	60	6
Zaawansowany R	60	4

Package features

beam_this_rmd()

Presentation Features

rnw_to_rmd()

business_card()

rnw_to_rmd()

rnw_to_rmd is converting .Rnw file into .Rmd file which can be further used to create a pdf presentation

An example usage:

```
oldWd <- getwd()
newWd <- paste(getwd(), "/tests/rnw_to_rmd", sep="")
setwd(newWd)

miniBeamer::rnw_to_rmd('rnwExample.Rnw')
rmarkdown::render('rnwExample.Rmd',
  miniBeamer::beam_this_rmd(toc = TRUE,
    latex_engine = 'pdflatex',
    themecolor = 'sapphire',
    fontcolor = 'graphite',
    bl = "C:/Users/Adam/Desktop/logoPW.",
    br = "C:/Users/Adam/Desktop/logoMin

setwd(oldWd)
```

Presentation Features

rnw_to_rmd()

business_card()

business_Card()

business_card() is converting .Rmd file into beautiful MiNI WUT themed business card

An example usage:

```
rmarkdown::render(  
  'tests/business_card/business_card.Rmd', miniBeamer::business_card()  
)
```

Example business card

```
---
address: |
  @mckraqs
logo: "WMiNI-znak.png"
person:
  - name: Mateusz Polakowski
    title: Data Science, MiNI PW
    phone: "+48 997 998 999"
    email: mateusz.polakowski@mini.pw.edu.pl
    url: https://github.com/mckraqs/miniBeamer
cols: 1
rows: 1
output: miniBeamer::business_card
---
```

WOW! WOW! This card is nice!
